

It costs very little to help save cats and dogs in Washington.

Cost to not help:

\$13.00

Cost to help spay or neuter 70,000+ animals:

\$13.24

Over **60,000 dogs and cats** are **euthanized*** in WA every year.

Adoptions help – but obviously **not enough**.

There are simply **not enough homes**.

Massive amounts of spay/neuter surgeries are needed to stop the killing.

Over 70 national & WA Animal Welfare groups are working to fund 70,000+ spays and neuters across the state by adding 3¢ per pound of pet food sold in Washington.

Please Help Us and the Animals!

Contact your legislator and ask them to **Support** bill **SB5329-HB1406**.

This bill does NOT make spay/neuter surgery mandatory.
